

Job Title: Ruby on Rails Developer
Reporting to: Director of Engineering
Location: Charlotte, North Carolina

TRUPOINT Partners is a fast-growing FinTech company that is reinventing the way lenders analyze their data and leverage Business Intelligence (BI) to comply and grow. We provide comparative analysis and risk management solutions to more than 500 financial institutions nationwide. Our software solutions enable our clients to more efficiently serve their communities and make a positive impact on the markets they serve.

- We're a SaaS-based analytics company with a great product that is changing the way lenders analyze their data.
- We're funded by a team of great investors who believe in our vision.
- We're based in the banking capital of Charlotte, NC.
- Our product is strong, our market is large and we're looking to grow like crazy.
- We need great people to join the team and get it done.

The **Ruby on Rails Developer** will be working with a group of talented and forward-thinking developers and designers to implement new solutions. We're a group who happily share knowledge and value others ideas. We work in an agile and environment, but understand that a healthy balance between life at home and work is important to delivering our best every day.

The Ideal Candidate will:

- Minimum 3 to 5 years of Ruby on Rails experience
- Solid familiarity with MVC frameworks databases/SQL, HTML/CSS/JS, AJAX, dynamic programming languages
- Experience building and maintaining production web applications
- A positive "can-do" attitude towards problems and opportunities
- Experience with test driven development
- Ability to perform code reviews to support overall code quality and consistency as well as individual career growth
- Experience dealing with large data stores
- Interest in what is happening with the entire product design and development process, not just coding to a provided specification
- And excellent communication skills
- Think you can be a top-performing BDR and a key member of our quickly growing company?

To apply, please send an email and your resume to careers@trupointpartners.com.
